Globalement les prix des principaux produits vivriers ont connu une hausse de 2,38% en juin 2022 comparé au mois de mai 2022.

En comparant les prix nominaux moyens au niveau national du mois de mai précédent, neuf (09) des dix (10) produits suivis ont connu une hausse (farine de maïs, farine de manioc, haricot, huile de palme, huile végétale, sucre, viande de chèvre) et un (01) a connu une hausse des prix (riz local). La même période le taux de dollars américain est de 2,020 francs congolais resté stable.

11/26 provinces que compte le pays ont connu de tendances haussières pour la plupart des produits vivriers suivis. Ces tendances à la hausse ont été observées à l'Est (Ituri, Nord Kivu), au Sud (Haut Katanga, Lualaba), au Nord (Bas-Congo, Sud Ubangi), au Centre (Kasai Central, Lomami) et à l'Ouest (Kinshasa) du pays.

Pendant la même période, on observe une stabilité du pouvoir d'achat alimentaire à base de maïs ainsi que pour celui du panier alimentaire. Cette stabilité du pouvoir d'achat pour les deux paniers alimentaires se traduit par la rémunération des travaux champêtres et à la stabilité des coûts des produits alimentaires. En revanche, l'accès au panier alimentaire à base de maïs reste difficile à l'Equateur (Bolomba, Lukolela), au Kasai Central (Kazumba), au Lualaba (Mutshatsha, Sandoa), au Sud Kivu (Fizi, Kabalo) et au Nord Kivu (Boende, Djolu, Monkoto).

Au Nord Kivu, l'activité militaire contre les rebelles du M23 est un facteur de l'instabilité des prix dans ce coin. En Ituri, les groupes armés ADF et COA sont à la base des instabilités dans plusieurs territoires avec des répercussions sur les moyens de subsistance des ménages ainsi que le fonctionnement des marchés. De plus, la situation de la crise en Ukraine impacte déjà sur les prix des produits alimentaires importés y compris les produits équivalents localement produits (céréales, les légumineuses, l'huile... Ceci est plus observé dans des grandes villes comme Kinshasa, Goma, Bukavu et Lubumbashi.
